

# ARE YOU INTERESTED IN LEARNING CLOJURE?

clojure / clojurescript / datomic

## convince your boss

### WHAT IS CLOJURE?

Clojure is a new state-of-the-art programming language that brings the elegance, flexibility, and brevity of Lisp to the JVM platform, gaining the many benefits that come with that:

- Cheaper
  - Expressive code means faster development
  - Fewer lines of code mean fewer defects
- Performance
- Deployability
- Full access to Java's rich, mature API and the myriad of libraries that have been implemented for Java over the last 15 years

### WHO USES CLOJURE?

Amazon, Groupon, Twitter, Prismatic, Flightcaster, Akamai, The Climate Corporation, Salesforce

### WHO SHOULD ATTEND?

This workshop will be a good fit if your employee...

- Is an experienced web programmer new to Clojure
- Understands object-oriented programming concepts such as classes, methods, data structures,
- Wants to create a Clojure app, or improve an existing app.

### WHO ARE THE TRAINERS?

All trainers are Clojure experts and members of Clojure/core, the main group driving the Clojure language. Clojure/core members work directly with Clojure author, Rich Hickey, to build and maintain the language. These are the only training sessions in the world run by Clojure/core members.

### STILL NOT CONVINCED? YOUR EMPLOYEE WILL:

- Gain direct feedback and insight from Clojure experts to improve their skills
- Help your company stay current
- Learn best practices
- Share what they've learned with your company after the training session

...As an added bonus, if you send 3 or more people from your office and save \$300 per training ticket.

WANT US TO COME TO YOU? WE CAN ALSO OFFER IN-HOUSE CLOJURE TRAINING AND CONSULTING AT YOUR OFFICE, CONTACT US AT: [TRAINING@THINKRELEVANCE.COM](mailto:TRAINING@THINKRELEVANCE.COM)
